THE MECHANICS OF THIS SERVICE

M-Sente Mobile Money is a system operated by UTL ("UTL") which provides a reliable and affordable facility for the transfer of money value from one place to another and from one person to another or any other entity using the Short Message Service (SMS) capabilities of mobile phones. Customers of M-Sente Mobile Money are not required to have bank accounts to carry out transactions using the M-Sente Mobile Money system.

M-Sente Mobile Money services are available to all members of the public who are mobile phone subscribers of any mobile phone service provider in the Republic of Uganda which accepts M-Sente Mobile Money.

The M-Sente Mobile Money system allows mobile phone subscribers who subscribe for M-Sente Mobile Money services ("customers") to make cash payments to authorized agents of UTL (Agents) in exchange for a credit of electronic stock value representing the cash paid (M-Sente). The M-Sente Mobile Money system purchased

is recorded in an account that is registered by M-Sente Mobile Money system and the name of the customer (a "Customer Account"), and is then available for the use using the SMS functionality on that customer's mobile phone. M-Sente Mobile Money is redeemable for cash from any Agent at any location within Uganda and/or may be transferred to any other customer or used to purchase UTL prepaid airtime or goods and services from retailers authorized to accept M-Sente Mobile Money. All cash payments received by M-Sente Agents are held under a trust account maintained by DFCU Bank for customers on their behalf and to their order and are recorded as a credit in each customer's account. Upon effecting a transaction, both the customer and the agent will receive an SMS confirmation of the transaction to be effected, and only upon receipt of such SMS confirmation will the Agent effect the transaction.
